Welcome to the computer-based exam tutorial for the API 510, 570 and 653 exams.

The exam contains **170 questions**, presented in random order. You will have **390 minutes** to answer all questions.

This is a two-part exam comprised of closed and open book sections. Following the closed-book section, there is a scheduled 45-minute break. The open-book section will start after the break and all code references for open book will be made available on screen.

Before you begin, it is strongly suggested that you take a few minutes to review the tutorial. The tutorial provides an overview of the features available to you during the exam.

To view this tutorial again at any time, click on the "Question Mark" icon at the bottom of your screen.

A calculator is available on screen during the exam. If you are in an in-person testing center and prefer a handheld calculator, please request one from the proctor.

After answering and reviewing all questions within the closed-book section, you can navigate to the scheduled break by clicking the "Finish Section" button in the top right of the screen. Once the "Finish Section" button is clicked, a sequence of pop-up windows will appear confirming that you want to finish the exam section. Once you confirm your decision to finish the section, you will progress to the scheduled break.

If you respond "No" to the pop-up, you will return to the section. Please note that once you submit the section, you may not return at any point. Any unanswered questions will be marked as incorrect.

Following your scheduled break, the open-book portion of the exam will begin. Should you choose to conclude your scheduled break early, again a sequence of pop-ups will confirm your decision.

After completing and reviewing all questions within the open-book section, you can click the "Finish Section" button in the top right corner of the screen. Once the "Finish Section" button is clicked, a sequence of pop-up windows will appear confirming that you want to finish. Once you confirm your decision to finish this section, you will progress to the general comment box.

Click "No" to return to the exam questions. Please note that once you submit the open-book section, you may not return at any point and your exam is finished. Any unanswered questions will be marked as incorrect.

To change the color scheme at any time, click on the "Gear" icon in the bottom left corner of the screen.

To begin the tutorial, click "Next" to continue.

Welcome to the Tutorial

This tutorial provides a series of screens that orient you to the computer testing environment. You will be instructed to use the mouse and different features available.

Notice the time at the top of the screen, this will appear throughout the exam, counting down the time available for each section. To the left of the screen is a numbered list that shows you where you are in the series of examination questions (or in this case, screens of the tutorial). Other screen features are described later in the tutorial.

Please note: the exam timer will continue to run during unscheduled breaks, question challenges and re-review of the tutorial.

Click the 'Next' button to continue.

Time Remaining

The amount of time remaining is displayed at the top of the screen.

Section Time Remaining
01:59:46
Each section, including the tutorial and survey, is allocated a specific amount of time. There is also an overall amount of time provided for your full exam appointment. Clicking on the clock will switch between the amount of time remaining in the current section of the exam and the amount of time remaining in all content sections, if applicable.

As a test taker, the "Section Time Remaining" is most important.

In the exam section, an alert box will appear below the section click to signal when you have 30 minutes, 15 minutes and 5 minutes remaining.

Click the 'Next' button to continue.

Using the Calculator

Calculator

A non-scientific calculator is available for use in the exam, similar to the calculator found in Microsoft Windows.

You can use the calculator to perform basic arithmetic functions, such as addition, subtraction, multiplication and division. If you are in an in-person testing center and prefer a handheld calculator, please request one from the proctor.

If you choose, you may take this opportunity to practice with the calculator now. Click the "**Calculator**" button on this page to open the calculator.

Click the 'Next' button to continue.

Navigating Through the Exam

Click the **Next** button displayed at the bottom of the screen to move to the next screen or question. Click the **Back** button to move to the previous screen or question.

In addition to the navigation buttons, you can use the numbered buttons displayed on the left side of the screen.

The numbered buttons change appearance to indicate different question states: Current, Attempted, Unattempted, and Flagged.

- 26 • The current question will be indicated by an arrow-shaped numbered button.
- 27 • For all answered questions, the numbered button will appear darker in color.
- 28 • For all unanswered and unattempted questions, the numbered button will remain the original color and shape.
- 29 • Flagged questions will show a flag icon on the numbered button.
- ⌄ • Depending on the number of questions in the section, you may need to click on the down arrow to navigate to additional questions.

Click the 'Next' button to continue.

Using the Drag and Drop Items

For a Drag and Drop Question, a single panel box with a options is presented. You must select all the options that you believe answer the question by placing them in the provided answer box(es).

To place an option in the answer box, click the selected option with your mouse and then drag, holding down the left mouse button, to the answer box. To remove an option, click and drag it out of the answer box.

Note: Depending on the specific question, options in the panel box may be placed in multiple answer boxes.

You can practice with the sample below, when you are finished click the 'Next' button to continue.

Options

| December | Horse | June | Dog |

Months of the year   Animals

Back   **Next >**   **Continue the Test >**

Options

Months of the year   Animals

| December | Horse |
| June | Dog |

Applicants will answer the question correctly only if they place all correct options in the provided box. If any option placed in the box is incorrect, the question is wrong. No partial credit is given.

Answering Extended Matching Items

To complete a match, click on the option you would like to choose, then click on the corresponding answer in the opposite row. This will connect the boxes with a red line

Repeat this procedure for all the answer boxes. Note: Multiple lines can be drawn to individual boxes. Certain boxes have a maximum allowance of usage.

If you wish to remove a connecting line that was drawn in error, simply use the mouse to click on the red line. It will disappear and allow you to redraw connections.

Use the example below to become familiar with the functionality, when you are finished click the 'Next' button to continue.

Dog	Feline
Cat	Canine
Cow	Bovine
Back   Next >   Continue the Test >

Extended matching questions will be correct if the options in the left and right columns are correctly matched. No partial credit will be given.

Using the PDF Viewer

Refer to the image below to assist you in understanding the PDF functionality. Please note that depending on your exam, some PDF functions may not be available.

Open the PDF Viewer within the exam

Within the appropriate item, click on the reference button to open the PDF viewer.

 If more than one PDF exists for your exam, select the "library button" in the upper right-hand corner to display all available PDFs.

Navigating through the PDF Viewer

You can use the mouse to navigate through the PDF document. To remove the PDF dropdown menu from view, click on the library button a second time. To view thumbnails of each PDF page, click on the "Thumbnail" button and select a page to view. If your PDF has bookmarks, click on the bookmark icon to view.

Note: only one PDF may be open at a time.

Other Functions of the PDF Viewer

- Pan - Click and drag to pan around the document.
- Zoom In/Out - Click to zoom in and out of the document. Other predefined options available in the drop-down list are: Automatic Zoom, Actual Size, Fit Page, and Full Width.
- Highlight - To highlight text, click and drag the mouse cursor over the desired text. Click the Highlight button that appears after releasing the mouse button. To remove the highlight, click on any area of the highlighted text.

You will not have access to a Find (Ctrl F) feature during the exam.

Click the 'Next' button to continue.
