

Date of Issue: October 2022

Affected Publication: API Specification 16RCD, *Rotating Control Devices*, 3rd Edition, June 2022

Addendum 1

3.1.3: The definition and NOTE shall be changed to the following:

body

An assembly of equipment between end and outlet connectors that contains wellbore pressure, including the sealing assembly latching mechanism.

NOTE A “body” is sometimes referred to as a “shell” or “housing”.
