

Date of Issue: November 2004

Affected Publication: API Specification 16A/ISO 13533:2001 (Modified),
Specification for Drill-through Equipment, Third Edition

ERRATA

Page 23, Table 12: The US Customary units for Nominal size 78 mm should be “3 1/16” rather than “3 1/8”

Page 28, Table 16 (right-hand side):

For Type 16B Integral Hub Connections, 20,69 MPa (3000 psi), size 16 3/4: replace Ring Number “RX 73” with “RX 65” (see revised section of table below):

Ring number	Designated size	Rated working pressure	
		MPa	(psi)
Type 16B integral hub connections			
RX 45	7 1/16	13,79	2 000
RX 65	16 3/4		
RX 73	21 1/4		
RX 53	11	20,68	3 000
RX 57	13 5/8		
<u>RX 65</u>	16 3/4		

SUPPLEMENT

Page 81, Section B.1:

Add the phrase, “or earlier editions of API Specification 16A”, to the end of the first sentence (see complete sentence below):

This annex defines the requirements for repair and remanufacture of drill-through equipment originally manufactured in accordance with this American National Standard or earlier editions of API Specification 16A.

Page 106, Section I.1:

Replace Section I.1 with the following:

I.1 API Monogram Marking Requirements

I.1.1 General

These marking requirements apply only to those API licensees wishing to mark their products with the API Monogram.

In addition to the marking requirements found in Clause 9, the API Monogram shall be stamped on the product after the product description code (PDC) or alphanumeric code, followed by API 16A, the edition of Specification 16A to which the equipment was manufactured, and the manufacturer’s license number.

Application of the API Monogram shall be per the manufacturers API Monogram Marking Procedure as required by API Specification Q1.

I.1.2 Repair and remanufacture

The API Monogram shall only be applied to equipment originally manufactured under the API Monogram Program in accordance with this American National Standard or earlier editions of API Specification 16A.

For repair and/or remanufacture marking requirements see Clause B.7. If applied, the API Monogram shall be adjacent to the information required in Clause B.7.2.
