We continue to see growth in the Basic Certifications like API 510, 570 and 653. The API 1169 has seen a drop in North American recertifications, but we see growth in other regions. API 1184, is our second offering in the midstream space with two exam administrations we are starting to see interest grow there.

Certificants by Generation

Millennials make up the core of certificants with an average age of 36. They overshadow Gen X and Baby Boomers combined. We see very few Gen Zs entering the market at this time. This is in stark contrast to where we witnessed millennials enter the market over 5 years ago.

*COVID-19 impact to testing began in earnest March through May 2020. During that period, we had over 2,000 displaced testers rescheduled to later dates that are reflected in the August 2020 and later windows. In late 2021 windows we start to see scheduling numbers return to normal and that follows throughout 2022 and into 2023. 2023 exams are only being reported against current scheduling through October 31, 2023.

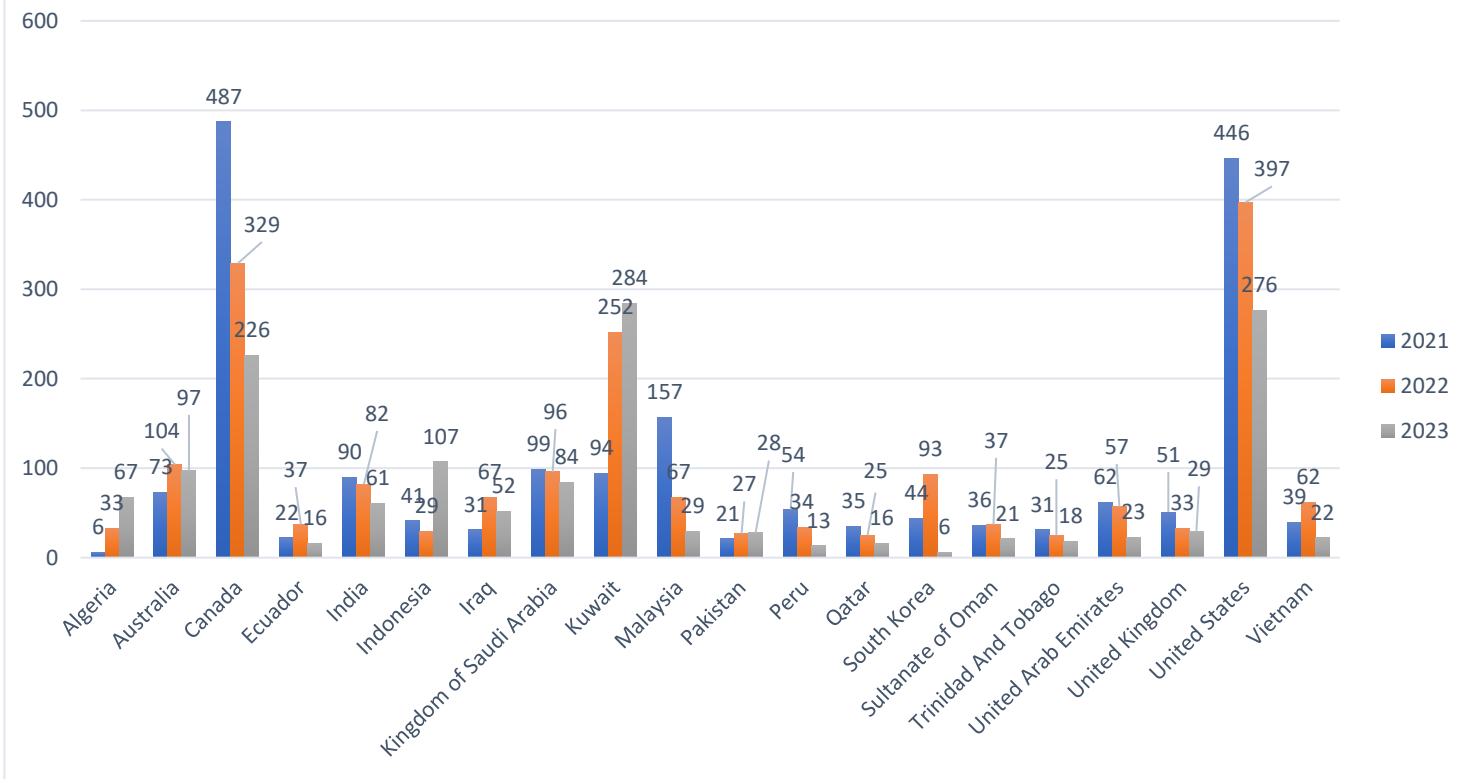

Remote Exams 2020 - October 2023

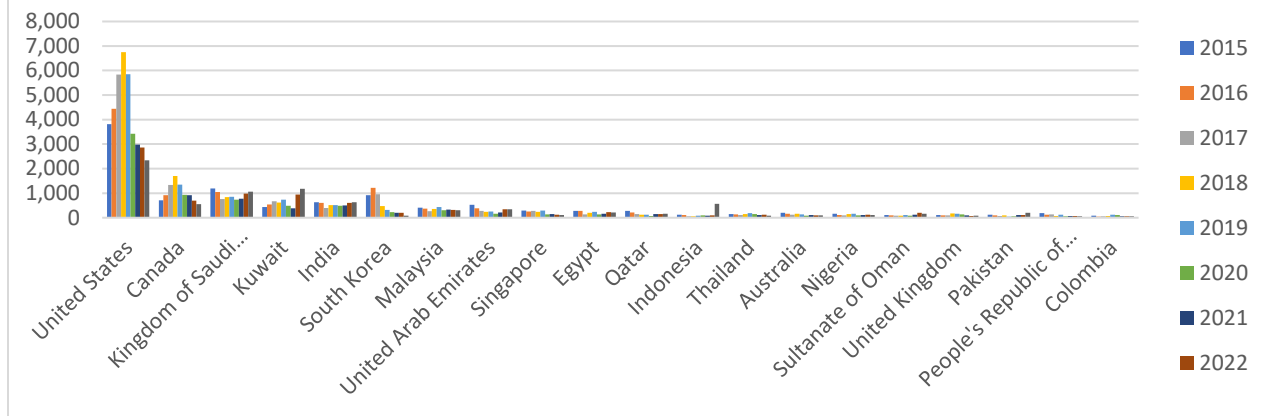

Remote exams piloted with the specialized CBT exams in November 2020 and expanded to cover all programs in February 2021

The remote exams have increased in interest over time, while it is not expected that this modality will overtake the in-person centers, we have administered over 5,000 remote exams since 2020. In 2023 we administered over 1,800 remote exams through October 2023.
