

ENERGY WORKS

America's oil and natural gas industry currently supports 9.8 million jobs throughout the economy.¹ Some in Congress are proposing and considering targeted tax increases for only U.S. oil and gas companies. The impact of such could compromise these high-paying union and non-union jobs, threaten our energy security and decrease American companies competitiveness with foreign based operations.

The people of
LOUISIANA

are part of the oil and natural gas industry.

1,610,208	Total employment for all industries and sectors in LA
\$45,801	Average annual salary in LA across all industries and sectors
412,600	Direct, indirect, induced jobs provided by oil & gas industry in LA
\$79,525	Average annual oil & gas industry salary in LA
\$93,183	Average annual non-gas station oil & gas industry salary in LA
\$95,829	Average annual upstream industry salary in LA
\$74 Billion	Contribution to the LA economy or 35.5 percent of LA GDP
9 th	Louisiana's oil production rank in the U.S.
3 rd	Louisiana's natural gas production rank in the U.S.

Based on 2011 IMPLAN database.

A Harris Poll conducted on election night – November 2014 – of 827 voters across the country who had voted earlier that day **found that 65% believe that increasing taxes on oil and natural gas companies hurts everyone because those tax increases could drive up energy costs for consumers.** In addition, 57% of actual voters oppose changes in the Federal tax laws that could decrease investment in energy production and reduce energy development here in the U.S.²
