

Date of Addendum: August 2022

Affected Publication: API Specification 10A, *Cements and Materials for Well Cementing*, 25th Edition, March 2019

Addendum 2

Foreword: The following paragraph shall be deleted from the Foreword:

For API Monogram Program licensees and APIQR Program registrants, this standard shall become effective on the program date printed on the cover but may be used voluntarily from the date of publication.

1.2: The following section shall be deleted:

1.2 Application of the API Monogram

When product is manufactured at a facility licensed by API and is intended to be supplied bearing the API Monogram, the requirements of Annex A shall apply.

4.1.1.2: The following section shall be added, and the subsections following it shall be renumbered:

4.1.1.2 Well Cement Testing by the Manufacturer

To conform to this standard, the manufacturer shall perform testing of well cements to the following:

- at a laboratory under a Quality Management System that conforms to a nationally or internationally recognized standard, such as API Specification Q1 or ISO 9001;
- at the same place of manufacturing as the Portland cement component in the case of composite well cements;
- on unmodified samples taken in accordance with 4.2, including composite samples, defined as a sample blended in the laboratory from multiple samples that are taken from the product in accordance with 4.2.

NOTE This clause does not prohibit users of well cement from independently performing specification testing according to this standard.

Annex A: The annex shall be replaced with the following:

Annex A

The information in this annex has been intentionally removed.

See API Specification Q1, Annex A or the API website for information pertaining to the API Monogram Program and use of the API Monogram on applicable products.
