RE: ISO/TS 29001 Petroleum, Petrochemical and Natural Gas Industries

Please be advised that effective June 1, 2014, API will no longer support ISO/TS 29001:2010 *Petroleum, Petrochemical and Natural Gas Industries – Sector-specific quality management systems – Requirements for product and service supply organizations*, as part of its APIQR Registration Program. All previously issued ISO/TS 29001:2010 certificates of registration should immediately be destroyed or returned to API. Please note that this does not preclude your organization from maintaining a quality management system meeting the requirements of ISO/TS 29001:2010; however, the API registration shall no longer be applicable.

Current API ISO/TS 29001 Registered Organizations have the following options:

1. Transition to a registration under API Spec Q1, 9<sup>th</sup> Edition, and/or ISO 9001:2008. Please follow the instructions found on API's website for completing the application package for APIQR Registration: (<http://www.api.org/certification-programs/api-monogram-program-and-apiqr/applications-forms.aspx>). There will be no application fees, but audit fees apply.
2. Take no further action, resulting in the withdrawal of your APIQR ISO/TS 29001:2010 registration on June 1, 2014.

**Please note: If you are currently in the application stage for ISO/TS 29001:2010 registration and have not been audited, your application will be withdrawn. You will be contacted with further details concerning fees paid for the application.**

For Registration related questions regarding the removal of ISO/TS 29001, please send all inquiries to [certification@api.org](mailto:certification@api.org).
