API'S PROCESS SAFETY SITE ASSESSMENT PROGRAM (PSSAP®) PRICING

PRICING STRUCTURE

API's Process Safety Site Assessment Program (PSSAP) continues to provide opportunities for industry facilities to promote step changes in process safety performance, learn from shared experiences, offer feedback on industry performance to identify trends, and encourage process safety collaboration.

As API develops more programs to assist operators with safety, these assessments continue to be accessible. The Extended Learning offering is API's newest, tailored to share industry good practices in greater detail with a site following an RP 751 or General Assessment.

TYPE	PRICE
General Assessment – Domestic[1]	$75,000
General Assessment – International[1]	$90,000
HF RP 751 – Domestic	$55,000
HF RP 751 – International	$70,000
Partial Domestic (per protocol)[2]	$15,000
Partial International (per protocol)[2]	$20,000
Focused – Domestic	$45,000
Focused – International	$65,000
Extended Learning (per protocol)[3]	$3,500

1 General Assessment equals 7 protocols (including MI). If doing additional protocols add on Partial price per protocol.

2 Mechanical Integrity and Product Storage & Transfer count as 2 protocols each for the purpose of per-protocol pricing.

3 Extended Learning offering's cost is based on per-protocol (or per-section for RP 751 Assessments) sharing per-day. $500 discount applies if being conducted virtually.
