## ISO 9001 & 14001 Transitions

### Don't let your ISO Registration expire.

ISO 9001/14001 Registrations need to be transitioned to the 2015 edition of the applicable ISO standard by September 15, 2018.

If your audit is scheduled between July 2017 and May 2018, please ensure that you have implemented the applicable requirements of the current edition of the ISO Standard. This will be your last opportunity to be audited to the 2015 edition(s) before the expiration date of your Certificate of Registration.

Please be advised that the process of transitioning organizations takes time. The process can take several months from the audit, to the audit review and allowing organizations time to respond to nonconformities, to the time that it takes API to make the certification decision. Additionally, a re-audit may be required, which may take the same amount of time.

Registrations that are not transitioned on September 15, 2018 **will expire**.

### Be prepared for your next audit.

Together, we can [Power Past Impossible!](#)
