

# ENERGY WORKS

America's oil and natural gas industry currently supports 9.8 million jobs throughout the economy.<sup>1</sup> Some in Congress are proposing and considering targeted tax increases for only U.S. oil and gas companies. The impact of such could compromise these high-paying union and non-union jobs, threaten our energy security and decrease American companies competitiveness with foreign based operations.

The people of  
**MISSOURI**

**are part of the oil and natural gas industry.**

2,250,914	Total employment for all industries and sectors in MO
\$44,698	Average annual salary in MO across all industries and sectors
118,800	Direct, indirect, induced jobs provided by oil & gas industry in MO
\$71,212	Average annual non-gas station oil & gas industry salary in MO
\$62,254	Average annual upstream (extraction and production) salary
\$9.8 Billion	Contribution to MO economy or 3.8 percent of MO GDP
29 <sup>th</sup>	Missouri's oil production rank in the U.S.
33 <sup>rd</sup>	Missouri's natural gas production rank in the U.S.

Sources: Bureau of Labor Statistics, *Quarterly Census of Employment and Wages*, Accessed 6/25/2015, Energy Information Administration, and "The Economic Impacts of the oil and natural gas industry on the U.S. economy in 2011: employment, labor income and value added," PriceWaterhouseCoopers, July 2013. Based on 2011 IMPLAN database.

A Harris Poll conducted on election night – November 2014 – of 827 voters across the country who had voted earlier that day **found that 65% believe that increasing taxes on oil and natural gas companies hurts everyone because those tax increases could drive up energy costs for consumers.** In addition, 57% of actual voters oppose changes in the Federal tax laws that could decrease investment in energy production and reduce energy development here in the U.S.<sup>2</sup>
