

# ENERGY WORKS

America's oil and natural gas industry currently supports 9.8 million jobs throughout the economy.<sup>1</sup> Some in Congress are proposing and considering targeted tax increases for only U.S. oil and gas companies. The impact of such could compromise these high-paying union and non-union jobs, threaten our energy security and decrease American companies competitiveness with foreign based operations.

## The people of **NORTH CAROLINA**

are part of the oil and natural gas industry.

3,375,648	Total employment for all industries and sectors in NC
\$45,022	Average annual salary in NC across all industries and sectors
146,100	Direct, indirect, induced jobs provided by oil & gas industry in NC
\$53,628	Average annual non-gas station oil & gas industry salary in NC
\$57,683	Average annual upstream industry salary in NC
\$12.5 Billion	Contribution to NC economy or 3 percent of NC GDP
32 <sup>nd</sup>	North Carolina's oil production rank in the U.S.
33 <sup>rd</sup>	North Carolina's natural gas production rank in the U.S.

Sources: Bureau of Labor Statistics, *Quarterly Census of Employment and Wages*, Accessed 6/25/2015, Energy Information Administration, and "The Economic Impacts of the oil and natural gas industry on the U.S. economy in 2011: employment, labor income and value added," PriceWaterhouseCoopers, July 2013. Based on 2011 IMPLAN database.

A Harris Poll conducted on behalf of API in April 2015 among 605 registered voters in North Carolina **found that 70% believe increasing taxes on oil and natural gas production hurts everyone because those tax increases could drive up energy costs for consumers.** In addition, 65% of voters oppose changes to the Federal tax laws that could decrease investment in energy production and reduce energy development here in the U.S.<sup>2</sup>
