BASE: All Respondents (n=822)

Q5 Do you agree or disagree with the following statement: The sources of electricity in Connecticut should be based on the marketplace, and not impacted by the state government giving special treatment to one particular company.

Voters Oppose Legislation That Would Give Millstone Nuclear Power Plant Special Treatment

As you may know, a company – the owner of the Millstone nuclear power plant – is pushing for legislation that would give its nuclear power plants special treatment, potentially driving up prices for Connecticut consumers. If the legislation is approved, the company would receive a higher price for its electricity and the legislation would allow that cost to be passed on to consumers. Do you support or oppose this proposal?

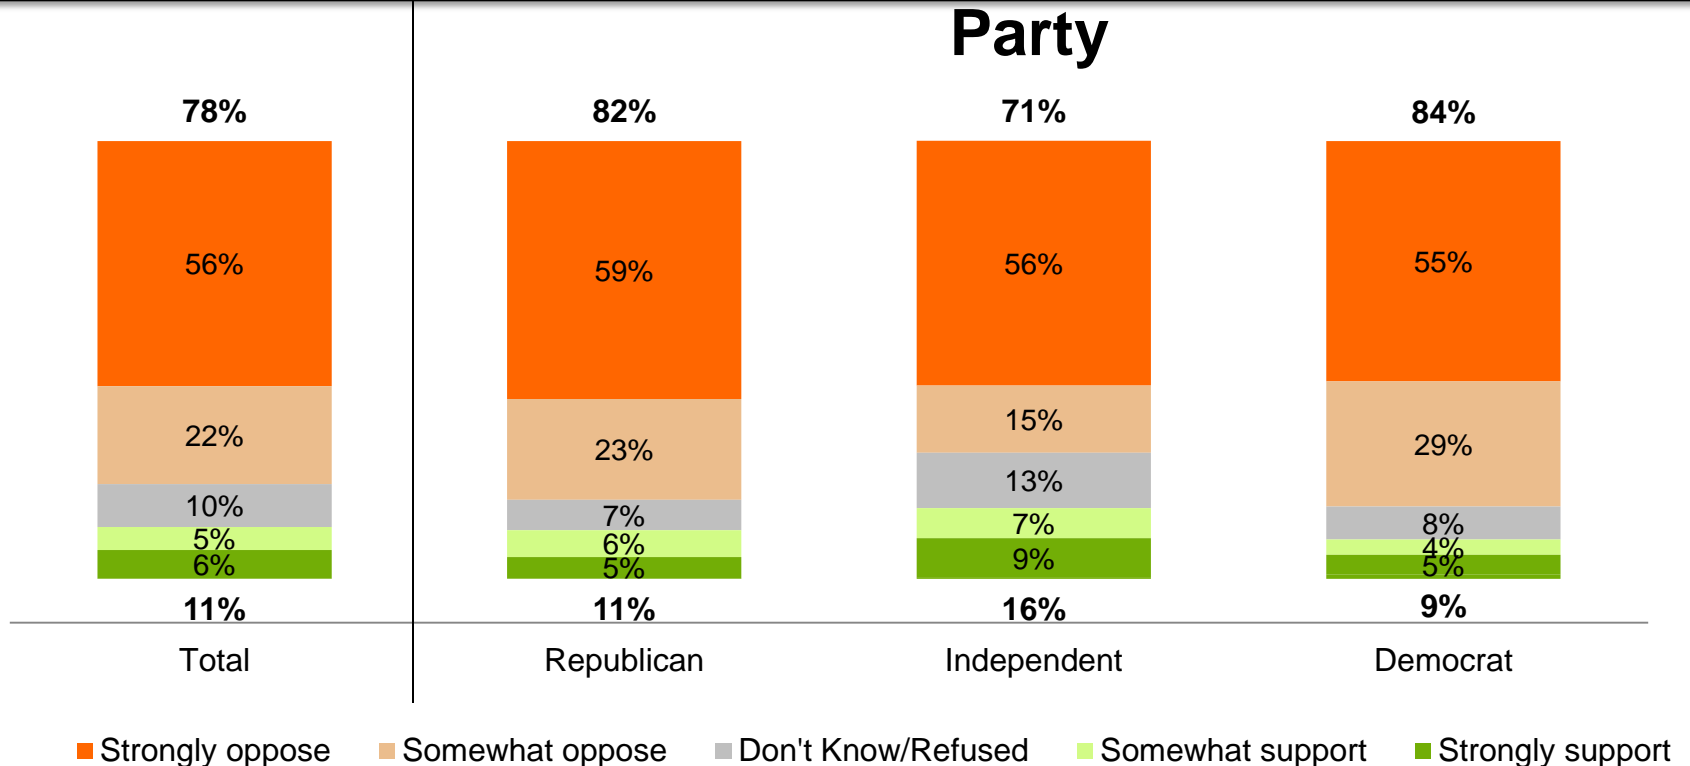

BASE: All Respondents (n=822)

Q6 As you may know, a company – the owner of the Millstone nuclear power plant – is pushing for legislation that would give its nuclear power plants special treatment, potentially driving up prices for Connecticut consumers. If the legislation is approved, the company would receive a higher price for its electricity and the legislation would allow that cost to be passed on to consumers. Do you support or oppose this proposal?
