

ENERGY WORKS

America's oil and natural gas industry currently supports 9.8 million jobs throughout the economy.¹ Some in Congress are proposing and considering targeted tax increases for only U.S. oil and gas companies. The impact of such could compromise these high-paying union and non-union jobs, threaten our energy security and decrease American companies competitiveness with foreign based operations.

The people of ARKANSAS

are part of the oil and natural gas industry.

957,133	Total employment for all industries and sectors in AR
\$39,273	Average annual salary in Arkansas across all industries and sectors
92,500	Direct, indirect, induced jobs provided by oil & gas industry in AR
\$70,195	Average annual non-gas station oil & gas salary in AR
\$78,144	Average annual upstream (extraction and production) salary in AR
\$8 Billion	Contribution to AR economy or 7.8 percent of AR GDP
19 th	Arkansas' oil production rank in the U.S.
8 th	Arkansas' natural gas production rank in the U.S.

Based on 2011 IMPLAN database.

A Harris Poll conducted on election night – November 2014 – of 827 voters across the country who had voted earlier that day **found that 65% believe that increasing taxes on oil and natural gas companies hurts everyone because those tax increases could drive up energy costs for consumers.** In addition, 57% of actual voters oppose changes in the Federal tax laws that could decrease investment in energy production and reduce energy development here in the U.S.²
