

# ENERGY WORKS

America's oil and natural gas industry currently supports 9.8 million jobs throughout the economy.<sup>1</sup> Some in Congress are proposing and considering targeted tax increases for only U.S. oil and gas companies. The impact of such could compromise these high-paying union and non-union jobs, threaten our energy security and decrease American companies' competitiveness with foreign based operations.

The people of  
**COLORADO**

**are part of the oil and natural gas industry.**

2,029,165	Total employment for all industries and sectors in CO
\$53,068	Average annual salary in CO across all industries and sectors
213,100	Direct, indirect, induced jobs provided by oil & gas industry in CO
\$85,897	Average annual oil & gas industry salary in CO
\$107,949	Average annual non-gas station oil & gas industry salary in CO
\$118,185	Average annual upstream (extraction and production) salary
\$25.8 Billion	Contribution to the CO economy or 9 percent of CO GDP
7 <sup>th</sup>	Colorado's oil production rank in the U.S.
6 <sup>th</sup>	Colorado's natural gas production rank in the U.S.

Sources: Bureau of Labor Statistics, *Quarterly Census of Employment and Wages*, Accessed 6/25/2015, Energy Information Administration, and "The Economic Impacts of the oil and natural gas industry on the U.S. economy in 2011: employment, labor income and value added," PriceWaterhouseCoopers, July 2013. Based on 2011 IMPLAN database.

A Harris Poll conducted on behalf of API in April 2015 among 606 registered voters in Colorado found that **69% believe increasing taxes on oil and natural gas production hurts everyone because those tax increases could drive up energy costs for consumers.** In addition, 54% of voters oppose changes to the Federal tax laws that could decrease investment in energy production and reduce energy development here in the U.S.<sup>2</sup>
