

# ENERGY WORKS

America's oil and natural gas industry currently supports 9.8 million jobs throughout the economy.<sup>1</sup> Some in Congress are proposing and considering targeted tax increases for only U.S. oil and gas companies. The impact of such could compromise these high-paying union and non-union jobs, threaten our energy security and decrease American companies competitiveness with foreign based operations.

The people of  
**INDIANA**

**are part of the oil and natural gas industry.**

2,499,850	Total employment for all industries and sectors in IN
\$42,718	Average annual salary in IN across all industries and sectors
136,400	Direct, indirect, induced jobs provided by oil & gas industry in IN
\$80,909	Average annual non-gas station oil & gas industry salary in IN
\$16.6 Billion	Contribution to IN economy or 6.3 percent of IN GDP
22 <sup>nd</sup>	Indiana's oil production rank in the U.S.
24 <sup>th</sup>	Indiana's natural gas production rank in the U.S.

Sources: Bureau of Labor Statistics, *Quarterly Census of Employment and Wages*, Accessed 6/25/2015, Energy Information Administration, and "The Economic Impacts of the oil and natural gas industry on the U.S. economy in 2011: employment, labor income and value added," PriceWaterhouseCoopers, July 2013. Based on 2011 IMPLAN database.

A Harris Poll conducted on behalf of API in April 2015 among 600 registered voters in Indiana found that **74% believe increasing taxes on oil and natural gas production hurts everyone because those tax increases could drive up energy costs for consumers.** In addition, 59% of voters oppose changes to the Federal tax laws that could decrease investment in energy production and reduce energy development here in the U.S.<sup>2</sup>
