API 16D Monogram Applicants

FROM: API Monogram Program

RE: API Specification 16D Licensing Information Form update

Please be advised that the API Specification 16D Licensing Information Form has been updated with the following product name changes:

Previous Product name	New Product Name
Control Systems for Surface Mounted BOP Stacks	Control Systems for Land Based and Surface-Mounted BOP Stacks
Hydraulic Control Systems for Subsea BOP Stacks	Discrete Hydraulic Control Systems for Subsea BOP Stacks
Electro-Hydraulic/Multiplex Control Systems for Subsea BOP Stacks	Electro-Hydraulic/Multiplex (MUX) Control Systems for Subsea BOP Stacks
Diverter Control Systems	Control Systems for Diverter Equipment
Emergency Backup BOP Control Systems	Secondary Control Systems for Subsea BOP Stacks

Additionally, "Auxiliary Equipment Control Systems and Interfaces" has been removed due to a definition change in API 16D 3rd Edition that has made the product ineligible for the Monogram Program. The product removal will be effective on February 3, 2023, to allow enough time for any job orders to be completed.

The changes to the API Spec 16D Licensing Information Form are effective immediately and are being implemented to align the Licensing Information Form with the latest revision of the standard.

The updated API Spec 16D Licensing Information Form can be found on the API website at [API Monogram & APIQR: Resources](#).

A copy of this notification can be found on the API website at [API Monogram/APIQR: Program & Spec Updates](#).

For any questions regarding the changes to the Licensing program for API Spec 16D, please contact us at www.api.org/ContactMonogram.

Thank you for your continued participation in the API Monogram Program and your dedication to quality.

Sincerely,

Kevin Ferrick
Senior Director, Monogram Program/APIQR
